**Pro-Landscape Structure
Product Catalogue
VOLUME 4**
(First Revision, 2015)

A young girl with dark hair is sitting on a blue slide, smiling broadly. She is wearing a white short-sleeved shirt with a pink ruffled collar and purple patterned pants. The scene is framed by a large circular opening, possibly a tunnel or a window, with a red border. The background is bright and slightly blurred, showing a pink vertical post and a blue sky with clouds. The overall mood is joyful and playful.

Why Choose Us?

Welcome to Pro-Landscape Structure! PLS takes great pride in knowing the needs of our customers through our extensive market research and the product innovation. A part of our mission to be your preferred supplier on playground equipment and park amenities, we are proud to share the commitment on safety of our product:-

ISO Certified - To ensure you get the best quality, PLS is proud to announce that we are ISO certified to ISO 9001:2008 standards.

International Safety Compliances – We manufacture and deliver the safest equipment that been certified and compliance with TUV EN 1176 and MS 966.

IPEMA members – PLS is a member in good standing of IPEMA, the International Play Equipment Manufacturers Association. IPEMA is a member-driven international trade organization that represents and promotes an open market for manufacturers of play equipment.

Product Liability Insurance - PLS offering product liability insurance covers the cost of compensating anyone who is injured by a faulty product that designs, manufactures or supplies.

ABOUT US

At Pro-Landscape Structure, our playground products are engineered and designed to trigger the boundless imagination of children and generates their enjoyment.

With our diverse designs on play structures, we are able to focus on customized designs and adventurous play activities that meet safety standards. Every year we strive to push the parameters of innovation, durability, and fun.

Our equipments are protected with the best warranty, guaranteeing defect free products, materials, and workmanship under all normal use and service. We also insist on the highest standards in customer service as well.

After all, we truly believe that, "children discover the world through play".

Testimonial from OUR VALUED CLIENTS

Our Hard Effort and Stern Dedication
are Paid by Continuous Support From
Our Valued Clients

+
"high quality
and excellent
after sales
service"

+
Pro-Landscape Structure Sdn Bhd (PLS) has been Sime Darby Property's preferred supplier for playground equipment and park amenities since 2003. We have been using 'SI-Comel' Play System in our development projects throughout Malaysia. PLS have performed satisfactorily and complied with our company's quality and delivery processes.

On top of their quality products, design and good 'after sales services', they also provide an insurance coverage of RM 1 million for Product Liability Policy and RM250,000.00 for Public Liability Policy which is not offered by all our previous suppliers. This is a multiplier in terms of customer service to our purchasers who buy homes in our townships, knowing well that their children are protected from possible incidents and mishaps.

As our preferred supplier, Sime Darby will work hand in hand to further strengthen this collaboration for all our future developments.

Mr. Ir. Saiful Bahri B. Simon
Head of Procurement & Technical Services
Sime Darby Property

+
Petaling Jaya City Council (MBPJ) has engaged Pro-Landscape Structure Sdn. Bhd. since 2002 to design, supply, and install children playground equipment at our public parks around Petaling Jaya.

It is our policy to ensure that the playground products are competitive in the market, varied in designs, high quality and safety standard with excellent after sales service.

In recognition of the quality of PLS' products and services, which has stood the test of time and remains in excellent condition. We would be happy to continue using the service from PLS and at the same time, recommend others to join in to get the best services and products from them.

Mdm Zuraidah Sainon
Director of Parks and Recreation Department
Petaling Jaya City Council, Malaysia

ACHIEVEMENTS

Translated into "The Cute One", one can assume that the name Si-Comel is referring to the cute and colourful design. Well that, and also more importantly, Si-Comel addresses the jewels that are running up, down, and around the playsets, being cute without even trying. Si-Comel carries the widest range of products to suit all their needs for exploration of fun and learning. How cute.

A close-up photograph of a water slide's white and blue tubes, with a swimming pool and palm trees in the background. The text 'WATERPLAY series' is overlaid in the top right corner. A small white box with a plus sign and text is located on the right side of the slide.

WATERPLAY

series

+

How about turning the fun meter up a notch? The amount of adventures, the thrill, and the spill, will provide the ultimate combination of guilt-free fun that no kid can resist. No kidding! To achieve maximum play value sometimes can be quite simple, just add water.

Perhaps the kids have had enough sunshine for the day, yet still bursting with energy.

Our indoor playsets are designed for them with an added play value. Lots of interactions, building their sense of direction and space, and physical strength.

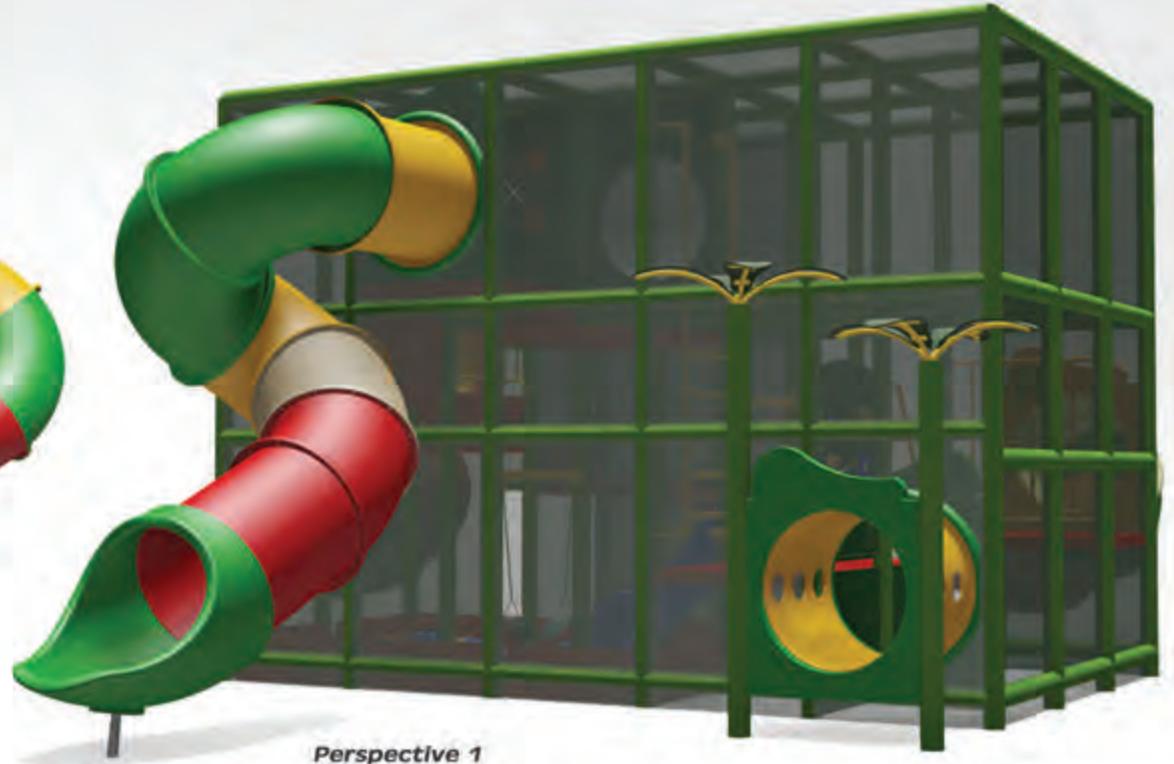

Suitable for indoor parks, shopping malls and hospitals.

Rest assured, the kids will remain intact after hours of playing. That's the safety part of our specially made impact absorbent flooring using soft epdm rubber. But the best part is, it beautifies with custom design of any pattern you like. Alternatively, simply lay on our pre-cut rubber tiles into checkered patterns of many colours. Both will be durable for years of hard trampling and scrubbing from kids feet.

SAFETY FLOORING SERIES

Our safety flooring comes in the shapes of pre-cut rubber tiles and EPDM granules mixed into custom designed patterns.

EPDM - Ethylene Propylene Diene Monomer Rubber
Using EPDM rubber granules allows you to create custom patterns for your flooring. Flexion 1170, an organic non toxic base moulded binder is used for maximum lifespan of your beautiful floor design.

Rubber Tiles
PRO-SAVE absorbing rubber tiles come in 50cm X 50cm dimension per piece. Rubber tiles is a quick safety flooring solution without compromising quality and beauty.

WARRANTY & MATERIAL SPECIFICATIONS

PRO-LANDSCAPE STRUCTURE` s WARRANTY

The company assures that its products to be free from any defect in materials and workmanship under normal use and service. However, it` s also important to note that;

THIS WARRANTY DOES NOT COVER DEFECTS, WHICH ARE MERELY COSMETIC, BUT IS LIMITED TO DEFECTS WHICH RESULTS IN STRUCTURAL FAILURE AND DOES NOT COVER DAMAGES DUE TO VANDALISM, NEGLIGENCE, AND NORMAL WEAR AND TEAR. THIS WARRANTY IS IN LIEU OF ALL OTHER WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

MATERIAL SPECIFICATIONS

A. MATERIAL

The choice of material used for children playground shall be based on mechanical demand such as strength, impact factor, elasticity & wear resistance.

The metal components used are galvanized for anti-rust protection and powder coated finished complying with MS966 : Part 1 & ASTM F1487-01 standard requirement.

B. BOLT, NUTS AND FASTENING HARDWARE

Standard components such as bolts & nuts, screws set, washers, shackle etc. Shall be stainless steel or finished with anti-corrosion resistant such as chrome plating or anodized. A protective cap will should be used for bolts head & nuts to avoid loosening or vandalism.

C. PLASTIC COMPONENTS

Selection of plastic components are based on their suitability for outdoor use and are strengthen for mechanical impact. All plastic components shall retain their properties on hot temperature from 30 C to 60 C. Rotational moulded components such as slide and panel have a double layered wall with thickness from 4mm to 6mm. They are moulded in various colours with UV stabilizer and are protected to the maximum within the frame of the strongest environmental demands.

D. METAL COMPONENTS

All steel pipe are protected by anti-corrosion resistant prior to galvanizing and powder coated finished. A steel pipe section shall confirm to the ASTM A500 standard with a minimum tensile strength of 400MPa. This steel pipe is tested for static load and mechanical impact test to comply with MS966 : Part 3 of Malaysian standard & ASTM F1487-01.

E. POWDER COATED FINISH

Metal components to be powder coated are free from excess weld and spatter. They are cleaned in seven bath system that shall include a rust inhibitive treatment before applying powder coated finished. The powder coated process must be included in a 3 layer coating with a minimum coating thickness of 70 (micron).

F. POLYTUFF COATING

POLYTUFF` coating shall be PVC-free and formulated for outdoor weather conditions. It shall have good UV-Resistance and have a bio inhibitor against melt and mildew growth. The finishing of the 'POLYTUFF` coating shall be of a high quality and shall have no drip or run marks on any of its surfaces.

G. SAFETY FLOORING

Our safety flooring comes in 2 different types of flooring systems. They are called Rubber Tiles and Seamless Flooring. These flooring are made from recycled tyre tread which is sieved into small pieces and bounded together with Flexion 1170 (moulded binder). The Rubber Tiles have a fixed dimension of 500mm x 500mm x 25mm thick and the Seamless Flooring can be in any shape and size. Our safety flooring is designed for better support against any accidental falling.

The safe design for playground equipments shall comply with the basic requirement of ASTM E1487-01 for the American Standard & Testing Material, MS966 : Part 1, Part 2 & Part 3 for Malaysian Standard Organization (SIRIM) and Quality Management System for ISO 9001 : 2008.
